

Dear Commissioners, Please register my objection to the idea of recording programming 24/7. Besides the obvious hard costs of equipment and storage of programs, recording 24/7 will simply add more duties to our already streamlined staff.

Our formats are also very non-confrontational. In our small market, it does not benefit us to be confrontational or vulgar. We police ourselves.

Adding this regulatory pressure only creates burdens and doesn't solve the problem of going after offenders.

Please reconsider this move.

Sincerely,
Kevin Skaalure
